Mr. Murray L. Nash  
Deputy Director  
Division of Classification  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

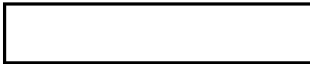

Dear Mr. Nash:

In response to your letter of 26 October 1972, I am pleased to state that this Agency does not object to the downgrading of Items 1, 2, 4, and 5 on the attached list to the classifications proposed thereon. We do object, however, to the downgrading of Item 3, NIE 11-2-64, 16 July 1964, from Top Secret/Restricted Data.

Replying to your question as to whether the asterisked documents should continue to be excluded from automatic downgrading, we advise that all five of the documents should be excluded from automatic downgrading.

Sincerely yours,

1s/
